

STAMPIN' UP!® COLOR-MATCH VALUES

Kaylyn Butler Conover

The following are color-matched values for Stampin' Up!'s exclusive colors. This list includes the nine colors retired in 2005. You can use these values to color-match scrapbook journaling or to create a custom sentiment inside of a card. Remember when printing on vellum that it is best to print in a DARK color, layering your vellum over a lighter color. When printing on cardstock, you may wish to try different color combinations to achieve either dramatic or subtle effects, just as you would with your stamping.

HOW TO CUSTOMIZE COLORS:

- Open Microsoft Word. Type desired text in your selected Stampin' Up! font.
- Choose FORMAT from the top menu bar.
- Select FONT,
- Then FONT COLOR.
- Select MORE COLORS,
- Choose CUSTOM. You will find a place to enter R, G, and B "values" for the color mixing.

SOFT SUBTLES
